Important Information:

The information required overleaf is not compulsory but does help our club coaches ensure we have the right information and details should a situation arise whilst your son, daughter or relative is playing cricket - this is why it's important:

Sport can and does play a major role in promoting inclusion of all groups in society. However, inequalities have traditionally existed within sport, particularly in relation to gender, race and disability. The England & Wales Cricket Board (ECB) and Sport England are committed to promoting and developing sports equity, which is about fairness in sport, equality of access, recognising inequalities and taking steps to address them. By monitoring the profile of young people in sports clubs, national governing bodies of sport and Sport England can identify any issues relating to under-representation of different groups and can together develop strategies to ensure all young people have an opportunity in the future development and progress in sport.
